# New year, new look

Welcome to our 2016 Tennis Court Equipment & Accessories Catalog! As many of you know, three years ago Har-Tru acquired Century Sports, a leading tennis court equipment and accessories company and manufacturer of windscreens based in Lakewood, New Jersey. Har-Tru and Century have operated separately since that time, but have recently merged and will operate under the Har-Tru name. This catalog is the first release of what we believe is the broadest, most complete tennis-court equipment and accessories catalog in the country.

---

**Har-Tru – COURTMASTER™ – TruFlow  
Royale – Hoag – Gator Rake – CourtPac  
TidiCourt – Rol Dri – Bakko – Playmate  
Signature – Aussie Clean Sweep  
Tennie Two Step – Rainbird – Court Maid  
Outpost – Super Sopper – Hunter  
Court Devil – Sunglo**

---

**THANK YOU FOR LETTING  
US HELP YOU HAVE A GREAT  
YEAR OF TENNIS!**

## Why should you buy from us?

It's a question we contemplate all the time. We know that you have plenty of choices in the tennis industry. Here are some ways we try to create value for you:

- ▶ **Product Selection** We want to be sure that you can find what you need when you need it. You're not buying a luxury car or new computer, you are buying pretty basic items that fill a specific tennis court need. Our goal is to have it and to get it to you quickly so you can get back to more important activities — like playing tennis!
- ▶ **Quality** The products we carry need to perform. They need to perform to your satisfaction, and they need to be safe and durable. If we fall short of those goals, we will make it right.
- ▶ **Service & Advice** We have a team of sales representatives who are ready to field your questions and process your orders. These folks are highly knowledgeable and can help you with selection and customization.

## FEATURED PRODUCTS

- Har-Tru Ball Mower
- Electric Roller
- Economy Model Gator Rake
- COURTMASTER Elite™ Windscreen

# OUR FEATURED PRODUCTS, INSPIRATION, AND INNOVATION

**We like to feature products that are new and/or unique.**

This year you will find an anti-jamming device, quiet environmentalism, exceptional durability and the winner of the best grooming performance.

# FEATURED PRODUCTS ▼

## Har-Tru Ball Mower

120-3200 ▲

The Har-Tru Ball Mower is designed specifically for clay courts. When a mower captures too many balls, the wheels lock up and the unit skids across the surface. On a clay court, the friction between the wheel on the mower and the court surface is lessened and skidding is more frequent. This leaves marks on the court that are unsightly, and that on clay affect ball bounce and play. Enter the patented, anti-jamming mechanism on the Har-Tru Ball Mower. The back plate is spring loaded so that as more balls enter the rolling mechanism, it flexes to handle the capacity. Constructed using stainless-steel and aluminum parts as well as specialized pins and casters, the Har-Tru Ball Mower is designed to hold up well in the moist, gritty environment. We know you are going to love this product!

\$299

## COURTMASTER Royale™

### Round Post with Internal Wind

100-244 (3" OD) ▲

### Square Post with Internal Wind

100-245 (3" SQ) ▲

The Royale post body is made of ASTM-1045 steel, coated both outside and inside with hot zinc to prevent rust and then powder coated.

- Deadend post has two-position cable hooks and a grooved post cap. Winder side post has a brass pulley post cap.
- The corrosion-resistant, self-locking, internal-wind assembly, constructed of hardened stainless-steel with matching removable handle, has been re-engineered for superior winding.
- The post handle's winder screw is now secured at its end to decrease the amount of play and make tightening the net a smoother operation.
- The gear wheel is now smaller, with longer cogs and is held in place from

both sides, decreasing the amount of play — and thus wear — to the gears.

- A wheel was added to feed the tennis net cable and seat it properly onto the winder so it won't lock up.
- Equipped with welded lacing rods for a professional net installation.
- Collars included. Sleeves purchased separately.
- Available in green or black. 64" overall length. 100-244: 65 lbs; 100-245: 75 lbs.
- Royale Post Collars (shown above) are included.

## COURTMASTER™

### Round Post with External Wind

100-247 (2 7/8" OD) ▲

This post is made of Schedule 40 steel, coated both outside and inside with hot zinc to prevent rust and then powder coated.

- Deadend post has cable cleat, welded setting collar and welded lacing rods for a professional installation
- Aluminum reel is equipped with ratchet guard for smooth and easy adjustment and includes removable handle
- Both posts come with brass wheel pulley post caps
- Sleeves purchased separately
- Green or black. 64" overall length
- 67 lbs

\$370

## Har-Tru Deluxe Internal-Wind Retrofit Post

**100-301** (2 7/8" OD) ▲

Give your court a facelift! Our redesigned Deluxe Internal-Wind Post will slide right over your old rusted and flaking 2 7/8" outside-diameter posts. This can save you thousands of dollars by negating the need to demolish and replace net post foundations during surface lifts and overlays. Available in black or green.

\$365

## Har-Tru Advantage External-Wind Post

**100-302** (2 7/8" OD) ▲

**This is the same dependable design that has been a fixture on Har-Tru courts for decades.**

- External reel with removable handle
- Durable, powder-coated finish
- Sleek, designed cap with brass pulley and axle
- Round shape
- Comes in green and black

\$375

## Har-Tru Deluxe Internal-Wind Post

**100-303** (2 7/8" OD) ▲

- Features the classic round shape
- High-grade aluminum with powder-coated finish resists rusting and deterioration
- Raise and lower the net rapidly using 1/2" or 19 mm socket wrench. Or better yet, use a drill!
- Welded aluminum lacing rods are elegant and simplify tiedown
- Comes in green and black

\$75

## Deluxe Heavy-Duty Universal Reel

**104-219** ▲

- Ratchet guard for increased safety
- Removable handle
- Available in black or green
- 4 lbs

**104-500K**

Reel and hardware

\$45

## Deluxe Heavy-Duty Reel

**104-218** ▲

- Removable handle
- Available in black or green
- 4 lbs

\$16

## Replacement Post Cap

**104-3574** ▲

- For 101-241 Post
- Available in black or green
- 1 lb

\$78

## Pickleball/ Paddle Post

101-241 ▲

\$198

Redesigned to suit your court needs better

- 2 3/8" OD steel
- Overall length 50"
- Includes #104-218 external winder
- Removable J-hook
- Includes two 24" PVC sleeves
- Available in black or green

## COURTMASTER™ Pickleball/Paddle Post

102-3441 ▲

\$299

- Made of 2 7/8" OD steel, with 104-219 External-Wind Reel
- Redesigned collar is now adjustable
- 54" overall length
- Available in black or green
- 69 lbs

104-248

\$16.95

Optional PVC Ground Sleeve

## Portable Tennis Net Standard

106-243 ►

\$1850

8.62 in

Ideal for tournaments or exhibitions when temporary installations are desired. Includes 3" square steel base frame, 2 end and 1 center caster assembly. Heavy-duty nonscuff swivel casters. Easy to assemble. 360 lbs.

When ordering a net for this unit, please specify that it will be used for this portable net standard so that the net can be cut to fit.

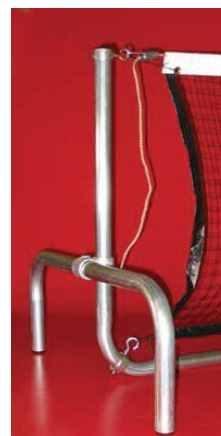

## Portable Tennis Net Standard

106-249 ►

\$1550

Great for indoor applications in gymnasiums and auditoriums. 2" OD heavy-duty galvanized steel tubing. 42' wide for tennis. 130 lbs.

When ordering a net for this unit, please specify that it will be used for this portable net standard so that the net can be cut to fit.

# DIVIDER NETTING

For maximum strength and high weather resistance. Netting is not coated; strength and weather resistance are built into fibers. 1 3/4" mesh. Strength per mesh 140 lbs, bound on four sides with heavy-duty, vinyl-coated nylon. Grommets spaced 15" apart on top and sides. Fire retardant.

# How to Choose a Windscreen

Nine-foot windscreens are recommended for nearly all courts, and they should include anti-billow tabs as well as 6" x 12" openings placed 10' apart. Six-foot windscreens generally do not look as attractive as, nor reduce wind as well as, nine-foot windscreens. They should only be used if the facilities are located near water. Very strong winds would destroy fences with 9' windscreens attached.

Windscreens are a functional and aesthetic addition to your tennis courts. They provide a dark backdrop against which players can see and react to ball movement better. They serve to break up gusting winds and allow consistent, even air flow.

Windscreens minimize annoying distractions from nearby swimming pools, parking lots, highways and players on adjacent courts. They give courts a professional appearance and increase playing pleasure by providing a consistent background and color.

With today's various windscreen materials, the decision regarding which one to use should be based primarily on cost and aesthetic considerations rather than on wind reduction, because all windscreens work well to break up gusting winds.

Another consideration is how dense a windscreen can be installed without risking fence damage from strong winds.

## Windscreens are a functional and aesthetic addition to your tennis courts.

**New to our line and highly recommended is the COURTMASTER Elite™. It is the most durable screen on the market. This product is tear- and abrasion-free. Using our latest innovation, Xtreme-Seal, all sewing and stitching is eliminated, leaving the product stitch-free.**

However, if privacy is an issue, you may need a more opaque windscreen to minimize visual distractions from public thoroughfares. The COURTMASTER Royale™ Screen, made of vinyl-coated polyester, is an excellent choice and offers a high level of opacity.

For smaller budgets, the COURTMASTER Pro™ offers high mildew- and sun-resistance at an excellent price, while the polypropylene is an excellent choice for controlling wind while providing consistent airflow. They both look great on the court and add to your playing pleasure.

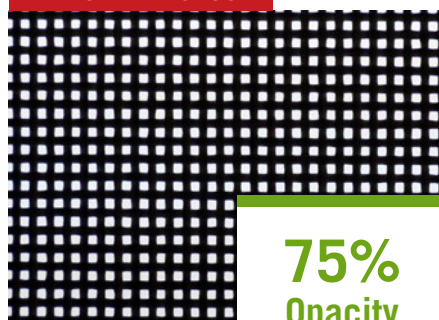

At the high end, the nine-foot-high Pro Screen offers a particularly attractive and distinctive look with its five-foot-high vinyl center (for maximum ball visibility) and two-foot-high PVC top and bottom (for optimal airflow).

**Call us to talk about including logos on your windscreen.**

**1-877-4-HAR-TRU**

**PLEASE NOTE:** When ordering windscreens with vents or windows, you will automatically receive our standard straightline configuration unless you specify differently at time of order. If you prefer a high/low configuration or a different straightline design or placement, you must inform us when your order is placed. Call us if you need a copy of these standard designs and placements or to ask about other configurations.

# BACKDROPS

COURTMASTER™ backdrops are used to screen out distractions of players moving between courts as well as to provide backgrounds against which to see the ball. They are also provide a physical barrier to keep balls within the court. They are available in a number of colors and weights and are manufactured with the highest-quality vinyl from the nation's leading mills.

114-444 ▶

Rectangular opening in vinyl backdrop made with 114-401 netting.  
Specify locations, sizes. Black, green, white.

\$6.50 SQ FT

Color Options

**PLEASE NOTE:** When ordering Replacement Skirts with Velcro™ please note that our standard procedure is to attach the female/fuzzy part of the Velcro™ strip to the replacement skirt so that it can be attached to an existing divider curtain that has the male/rough part of the Velcro™ strip. If your existing curtain has the female strip and you need us to attach a male strip to the replacement skirt, we must be notified at the time the order is placed, because we will need to reverse our procedure.

Female Velcro™ Strip  
(Fuzzy texture, with loops)

Male Velcro™ Strip  
(Rough texture, with hooks)

## Polyethylene Fencing

**\$0.97 SQ FT**

117-801

**80% Opacity**

This is the strongest possible netting available that does not give a heavy appearance. It is designed for outdoor use and treated with the same weather treatment used on commercial fishing nets. Made of black polyethylene, this fencing blends into the background and is a great alternative to commercial-looking chain-link fences. Installs easily and is cut, hemmed and grommeted to fit your needs.

**\$0.50 SQ FT**

## Fabric Fencing

Color

117-1006 ▲

The ideal alternative to expensive chain-link fencing. Made of durable 1 3/4" mesh polyethylene netting (unbound), it's perfect for private tennis courts because it's aesthetically pleasing.

- Easy to attach to metal or wood poles.
- 10' or 12' H. Lengths of 60' or 120'.
- Also available in other lengths by special order.
- Green only
- 38 sq ft/lb

## Pocket Fence

Color Options

# GET THE MOST OUT OF YOUR GAME

**We have a very strong line of ball retrievers.** Our Har-Tru ball mower is the only anti-jamming mower in the world and our Hoag teaching cart is consistently rated by our customers as the most durable in the industry, with the best casters. You also get great prices on the 85-ball baskets. Need a ball machine? We sell the best names in the business.

# BALL BASKETS ▼

We sell unique, high-quality and high-performing ball baskets, carts and mowers.

BRANDS YOU TRUST: **Hoag & Har-Tru**

## INNOVATION YOU NEED

Our ball mower never jams!

## DURABILITY YOU CAN COUNT ON

We choose the absolute best wheels for our teaching carts so they won't break or stick.

## PRACTICAL SOLUTIONS

Our PVC teaching cart is the most weather-resistant option available.

### Hoag Teaching Cart

\$165

▼ 120-9605

**Best wheels:** bolted 5" durable wheels, solid-steel shank eliminates breakable plastic inserts. Sealed ball bearings on axles and casters resist dirt and clay.

**Durable Basket:** solid 1-piece welded frame. Heavy-duty basket and storage tray. Tray is recessed into bottom support arms, eliminating sharp corners.

**Easy assembly:** requires basket, wheels and handle to be bolted on.

- Racquets can be locked inside the cart
- Easy-locking lid
- Holds 350 balls
- 40 lbs
- Foam-cushion handle

\$26

### Hoag Ball Basket

120-291 ►

- Holds 85 balls
- Weather-resistant PVC coating helps protect hands and prevents court damage
- Balls are picked up through the bottom, eliminating stooping
- Solid heavy-duty handle

\$35

### Hoag Ball Basket

120-9602 ▲

- 72-ball basket
- Workhorse of the industry
- Perfect for club or pro
- Flexible fiberglass rods

## FEATURED PRODUCT

### ►► Har-Tru Ball Mower

120-3200

\$530

The Har-Tru Ball Mower is designed specifically for clay courts. When a mower captures too many balls, the wheels lock up and the unit skids across the surface. On a clay court, the friction between the wheel on the mower and the court surface is lessened and skidding is more frequent. This leaves marks on the court that are unsightly, and on clay, it affects ball bounce and play. The back plate is spring loaded so that as more balls enter, the anti-jamming mechanism on the Har-Tru Ball Mower flexes to handle the capacity. Constructed using stainless-steel and aluminum parts as well as specialized pins and casters, the Har-Tru Ball Mower is designed to hold up well in the moist, gritty environment. We know you are going to love this product!

### PVC Ball Cart

120-3116 ▼

\$300

- Procart with lid
- White PVC pipe
- 300-ball capacity
- Great for coastal areas

## Playmate Electric Machines

### Playmate Ace 125-3267

**\$3850**

Variable topspin, backspin, elevation, oscillation 1-3 lines, holds 200 balls

### Playmate Smash with Directional 125-3269

**\$4845**

Larger hopper, same as 125-3267, except electronic direction to 7 lines, accepts all control panels, holds 300 balls

### Playmate Deuce 125-3275

**\$5730**

Same as 125-3269, except up to 2-shot combos, 1-shot delay, great for private court owners, holds 300 balls

### Playmate Genie 125-3270

**\$6610**

7 programmable shots, directions, elevations, variable topspin/backspin, on/off remote, holds 300 balls

### Playmate Genie PC 125-3276

**\$395**

Gives you wireless controls, and ability to organize and save drills, for computer-savvy users

### Playmate Slam 125-3280

**\$7870**

Pitches any spin possible, pitches up to 120 mph, use with Serve Lift for returning any serve

### Playmate Slam PC 125-3281

**\$9445**

Gives you wireless controls and ability to organize and save drills, for computer-savvy users

### Playmate Lift 125-3278

**\$4925**

Lifts any Ace series Playmate into the ultimate serving machine

## The Wilson Portable Ball Machine

The Wilson Portable Ball Machine combines state-of-the-art portability with the performance you expect from Wilson. The first measure of a portable machine is its actual portability. The Wilson Portable Ball Machine is lighter (38 lbs, including battery) and more compact (22" L x 14" W x 20" H) than any ball machine with similar features. Plus, it includes a built-in handle and towing wheels to enhance portability.

# A CLEAN COURT IS A HAPPY COURT

### Got a hard court? Got a clay court?

Let us help you keep it pristine. We have more than 60 years of expertise in this department, so don't hesitate to call us for advice on which tools make the most sense for your situation.

# GATOR RAKES ▼

## Gator Rake: Best tool for maintaining optimal traction

Many of today's Har-Tru courts need daily agitation to perform at their best. This is particularly true for subsurface-irrigated courts, West Coast courts and indoor courts. The Gator Rake line was developed for this very purpose: a tool that can be used daily to leave the ideal amount of loose surface for perfect play. The shape and length of the aluminum teeth, along with the weight characteristics of the rake, make it unique to its purpose. Facilities can choose from the four models below to best meet their needs.

### Gator Rake Pro 72" Tow Model

**146-3684 ▲**

This contractor-grade tool is the heaviest and most durable rake on the market, making it ideal for scarification, top dressing and aggressive daily maintenance. Weight towers (sold separately) allow you to add weight for deeper surface penetration.

### Gator Rake 72" Economy Model

**146-3682 ▲**

The Economy model is perfect for daily maintenance activities. It's not as versatile as the Pro model but provides great value for the work it does. The lighter-weight design makes it easier on the lines and more maneuverable around the court. Wheels on either end of the rake prevent damage to fences, nets, posts and other court equipment.

### Gator Rake Weight Towers

Weights not included for tow bar only.

**146-3688**

**\$29.95**

Weight attachment for tow version, center attachment

**146-3701**

**\$39.95**

Weight attachment for tow version, side attachment

### 72" Hand Model Rake

**146-3686 ▲**

The 72" Hand Model Rake brings the court back to life after heavy play. It's just the right size and weight for members to pull around the court between matches.

### The Agitator 24" Hand Model Rake

**146-3685 ▲**

The Agitator is the best hand tool we have for spot treatment of areas susceptible to moss, weeds, algae or hard pan.

### Gator Rake Replacement Tines Cartridge

**146-3696** Tine Cartridge ▲

**146-3708** 7" tines for 72" rake

**\$179.99**

**146-3709** 4" tines for 24" rake

**\$62.95**

## Court Maintenance ► SPREADERS & SCARIFIERS

### Truflow Topdressers

**124-3069** ▲

24" Hand Spreader

**\$950**

**124-3065** ▲

36" Tow Spreader

**\$2245**

**124-3066**

54" Tow Spreader

**\$2965**

These three topdressing units offer unmatched performance in distributing Har-Tru as well as rubber and other materials for synthetic grass, natural turf and running tracks.

A 24" hand model will hold up to four 80-lb bags of Har-Tru and the 36" tow model will hold eight 80-lb bags, while the 54" tow model handles a whopping twelve 80-lb bags of Har-Tru! Simply bolt on the handle and you are ready to start your preseason renovation.

### Court Devil Jr.

**146-3408** ▲

This smaller, hand-model Court Devil is designed for maintaining areas along court perimeters and beneath the net line. It is also great for loosening localized hard spots. Weight 85 lbs, width 16".

### Truflow Bag Breaker

**124-3131** 24"

**\$150**

**124-3132** 36"

**\$175**

**124-3133** 54"

**\$200**

The Har-Tru bag breaker allows you to open 50-lb and 80-lb bags of Har-Tru quickly, easily and safely. Bag breakers are available for all three TruFlow spreaders.

**\$1595**

### Court Devil

**146-3409** ▲

Designed to agitate the court surface without removing or damaging existing line tapes, it also helps prevent and break up mineral deposits, mold, algae and fungus that tighten the court surface. It scarifies the court with circular steel blades mounted on free-turning axles. For best results on the court, add no more than 50 lbs of additional weight. Weight 105 lbs, width 48".

### Lute/Scarifier

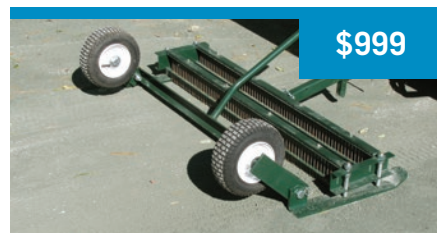

**146-3047** 30"

**\$70**

**146-3420** 48"

**\$79**

The lute/scarifier is two tools in one, made of all aluminum for scarifying, leveling and removing loose granules. It is strong and sturdy, yet light enough to use all day, and excellent for spreading new material during topdressing. The concave shape of the 30" wide blade allows the tool to "float" along the surface, without grabbing or digging in.

**\$999**

### Tow Scarifier

**146-3413** ▲

4' wide, 2 rows of nails, 61 nails per row

This 48" wide heavy-duty tow model scarifier is truly a workhorse for loosening the top surface on Har-Tru courts. It is especially good for indoor courts and sunbaked Southern courts that have excess calcium buildup. The unit is heavy enough to allow its two rows of case-hardened nails to really penetrate the surface.

- Sized to fit between the alley tape
- Levered wheels lift unit over tapes so tapes can be left in place
- Adjustable tow hitch fits most utility vehicles
- Adjustable steel rails lower nails as they wear down
- Removable steel plate allows for easy nail replacement
- 40D nails: 3/16" diameter by 5" long

### Replacement nails

**\$189**

**146-3415**

50lb box

## Lawn Wheelie

**\$605**
**122-3676** 2.5 gallon

The Lawn Wheelie is a motorless weed sprayer that delivers a 36" fan of solution at a rate of approximately 1000 sq ft per gal. It features a 2.5-gal tank, spray nozzle, shut-off valve and a ground-driven pumping system that adjusts to the speed the unit is pushed. It is a must for spring topdressing.

## Cutrine Plus

**122-3456**
**\$160**

Cutrine liquid algaecide is for use in HydroCourt water control boxes only. The application rate is 7 oz per each water control box per each application. Applications should be made every four months. The recommendation is for 1 gal of Cutrine per court per year to deliver the best algae control available. Four 1-gal containers per case. Not available in all states.

## Roundup® QuikPro Herbicide

**122-3459**
**\$26**

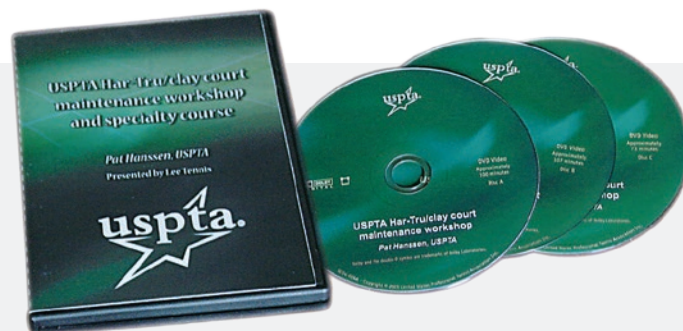

Roundup QuikPro Herbicide is sold for the control of grassy and broadleaf weeds growing on the tennis court. The recommendation is to use one 1.5 oz packet with 1 gal of water in our Lawn Wheelie motorless sprayer.

## Har-Tru Maintenance DVD

**149-3459** ▶

**\$39.95**

The Har-Tru Maintenance DVD set includes 3 DVDs filmed in partnership with USPTA. The DVDs cover topics from "What is Har-Tru?" to the latest in subsurface irrigation, annual maintenance procedures and step-by-step instructions for topdressing.

## Har-Tru Designer Tape

**109-602P** Punched   **109-602U** Unpunched

**\$331**

This Designer tape is the best line tape you can buy for your court, with its sure-spin feature and unique raised pattern specifically designed to allow consistent ball spin and speed at any angle the ball strikes the tape. It offers easy cleaning, long life and stability, and will not yellow with age. The webbing is made from the finest synthetics available, and has a pure PVC coating. It is available with or without preformed nail holes.

**109-602P | 109-602U**

## Har-Tru Classic Tape

**109-601P**

**\$326**

The same top-quality webbing and vinyl coating used in our Designer line tape is also the basis for our Har-Tru Classic tape. It has an even-textured, rubberized coating that combines good ball bounce, long life and easy cleaning. Available with preformed nail holes. The Har-Tru Classic tape represents affordable quality in a line tape.

**109-601P**

## Har-Tru Herringbone Tape

**109-603P** Punched   **109-603U** Unpunched

**\$318**

The Har-Tru Herringbone tape is designed to ensure consistent ball spin and speed at any angle the ball strikes the tape. It is easy to install, made of long-lasting vinyl, meets specifications, cleans easily, stays white longer and has preformed holes for nailing ease. It has the same long-life quality as the Har-Tru Classic tape, but with added texture. The balance of quality construction and player benefits makes the Herringbone tape the best tape value.

**109-603P | 109-603U**

## 2" Tenex Designer Raised Dot Tape

**109-502P** Punched   **109-502U** Unpunched   **109-502C** Pre-Cut

**\$341**

Nonslip surface provides consistent bounce.  
Available unpunched, prepunched and precut.

**109-502P | 109-502U  
109-502C**

## 2" Tenex Standard Tape

**109-501P** Punched   **109-501U** Unpunched   **109-501C** Pre-Cut

**\$333**

Nonslip surface provides consistent bounce.  
Available unpunched, prepunched and precut.

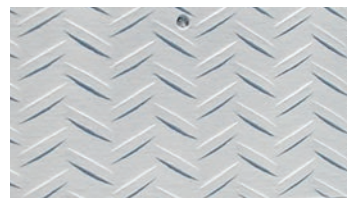

**109-501P | 109-501U  
109-501C**

## 2" Tenex Pro Herringbone Tape

**109-503P** Punched   **109-503U** Unpunched   **109-503C** Pre-Cut

**\$328**

Nonslip surface provides consistent bounce.  
Available unpunched, prepunched and precut.

**109-503P | 109-503U  
109-503C**

- Available in 11-lb or 25-lb boxes

**110-510** 25-lb Box

\$287.95

- 2 1/2" copper nails (large head) for cinder-base courts
- 25 lbs per doubles court
- Available in 25-lb boxes only

## 10 & Under Tennis Lines For Clay Courts

Har-Tru has developed the first set of temporary lines specifically for Har-Tru courts that can be installed by one person in 5 to 7 minutes.

\$89.95

## Temporary Lines

**108-3677** 36' ▲

Our 36' temporary lines come in red to match the red ball used on 36' courts and to show up sharply against the Har-Tru green. The system comes in two pieces, an outside rectangle and an inside I. The pieces are attached with Velcro™ and secured to the court surface with just 12 nails. Nails are included with the lines. Lines are 1" wide.

**108-3682**

Temporary Line Reel

\$14

\$99.95

## Temporary Lines

**108-3678** 60' ▲

These lines are identical to the 36' lines, except they are colored orange to match the orange ball used in 60' tennis. Ten nails (included) secure these to the court. One Velcro™ intersection allows you to install the lines without disconnecting the center strap. All intersections are stitched together. Lines are 1.5" wide.

\$75

## Tape Stretcher

**150-3040** ▲

The tape stretcher ratchet has a 2" wide slot to insert tape for quick and easy installation of straight line tapes by one person. The leather pad and support strap allow the ratchet to pull the tape straight and taut just above the surface so it can be nailed securely. The tape stretcher will improve the straightness of your tape and decrease installation time. It is especially helpful with old tapes.

\$192

## Tape Layout Cables

**150-3032** ▲

Line tape layout is a snap with the court cables from Har-Tru. One person can locate pivot points and corners quickly, saving time and effort. Instructions included.

**We heard you, loud and clear: you want a roller that doesn't make noise, doesn't make a mess, is easy to use, and is effective. That's why we designed the CourtPac Electric Roller by Har-Tru.**

This truly unique product is perfect for communities where noise restrictions are in place. It has zero emissions, and it can be operated both indoors and in covered areas. Its single AC motor is powered by four 12-volt deep-cycle batteries, and the CourtPac Electric Roller is easy to maintain.

**FEATURED PRODUCT**

## CourtPac Rollers

CourtPac Rollers are the best design on the market today. Equipped with a Honda engine that starts on the first pull and a hydraulic transmission that is smooth, responsive and controls speed and direction. Easy to maintain — just add oil! No more chains or sprockets to replace. Safety switch is located under the seat.

## CourtPac Electric Roller

**127-3200**  
48" CourtPac Electric Roller **\$10,575**

**127-3201**  
60" CourtPac Electric Roller **\$10,990**

Our quietest roller yet! Features include

- No emissions, no oil, no gasoline, no pull-cords
- Operates indoors, outdoors, or in covered areas
- Super quiet, 5- to 6-hour battery life, LED display
- Foot-pedal control, cruise control, low-effort steering
- Includes battery charger, back-up alarm, easy speed switch
- Comfortable padded seat with cup holder

## Roller Brushes

The complete brush assembly includes the brush, upright mounting rods, floating springs, adjustment knobs and hardware. The brushes have easy-to-change, replaceable bristles.

**128-3035**

**128-3034**  
4' Rear Brush Fine **\$206**

**128-3036**  
5' Front Brush Coarse **\$212**

**128-3037**  
5' Rear Brush Fine **\$212**

## Tow Roller

**127-3073** 4' Roller

**\$3,915**

**127-3067** 5' Roller

**\$4,495**

The Tow Roller model is an easy-to-use alternative to the power roller. It can be pulled by a golf cart, lawn tractor or utility vehicle and still offers the same rolling speed and convenience as the power roller. This unit can be upgraded to a motorized roller by adding the power head of the CourtPac Pro as shown on page 28. It comes with a towing tongue, hitch pin, urethane blades, and front and rear court brushes. Shown here with optional auxiliary wheels, it comes in a 4' and 5' width and has a 1-year warranty.

Tow Roller shown with optional auxiliary wheels — wheels are not included

## Auxiliary Wheels

**128-3038** Aux Wheel Kit for Tow Roller

**\$775**

**128-3041** Aux Kit for CourtPac Pro Roller

**\$750**

Auxiliary wheels have been designed to ease roller movement over difficult terrain. Leverage handles raise or lower the wheels, lifting the roller off the ground to prevent damage. A heavy-duty locking pin secures the wheels in position. The auxiliary wheels will increase the life of your roller and make it much easier and quieter to use when difficult transporting is required.

**\$930**

## Small Hand Roller

**127-3044** ▲

Perfect for the club that needs touch-up work around court edges, patching of low spots, etc. The drum size is 18" x 24" and can be filled with water for a total weight of 320 lbs. The unit is all steel and comes with a scraper bar for removing any buildup on the drum. This roller is a good companion for your heavy-duty court roller. 1-year warranty.

**\$2200**

## Split-Roll Hand-Tow Roller

**127-3045** ▲

This 24" x 24" hand roller is improved to give the same split-roller action as our more expensive rollers. Dual drums can be water-filled for added weight, yet can turn on the court without damaging the surface. This is the only hand roller that can be towed in ovals with its dual-purpose handle. A scraper brush is included for removing any buildup on the drum. Good roller for those on a tight budget. 1-year warranty.

## The Line Master

<b>148-3042</b>	Fine	<b>\$165</b>
<b>148-3042C</b>	Coarse	<b>\$165</b>

Features include a curved handle, all-aluminum construction for rust-free outdoor use, positive locking brush action and a perfectly textured brush for an easy-to-use yet firm brushing action. The angle allows the brush to dig in and remove those hard-to-clean areas that require more pressure. Brushes available with coarse or fine bristles.

## Replacement Brush Assemblies

<b>148-3048</b>	Brush, Springs, Axle, Bushings	<b>\$84</b>
<b>148-3048C</b>	Coarse	<b>\$84</b>

Complete replacement brush assembly for the Line Master (above) with a synthetic brush, axle with nylon sleeves and springs. Easy to install and requires no special tools. Available in coarse or fine.

**\$69.95**

## Line Scrub

◀ **148-3057**

The heavy bristles break up the Har-Tru that gets caked on the tape. The unique aluminum handle gives the needed leverage to make the job easy. The brush head is reversible and replaceable.

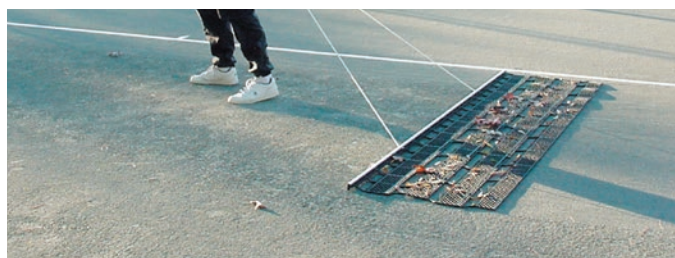

<b>148-3411</b>	<b>\$48.95</b>
Replacement Line Scrub Brush	

## Stainless Steel-Bristle Drag Brush

<b>136-3660</b>	Steel Hand Model	<b>\$460</b>
<b>136-3661</b>	Steel Tow Model	<b>\$470</b>

The steel bristles excel at agitating the surface of hardened indoor and outdoor courts with sub-surface irrigation. They help break up algae and prevent its formation. Stainless steel bristles reduce rusting and increase this product's durability.

## Aussie Clean Sweep

<b>136-3033</b>	8' Model	<b>\$455</b>
<b>136-3053</b>	4' Model	<b>\$285</b>

This unique combination tool from Australia helps pick up and remove leaves, pine needles, stones, ball fuzz and other debris found on your court while grooming the court like a drag brush. The PVC tines lift the debris and flip it on top of the unit so it can be carried off the court. Available in 4' and 8' widths.

## Super Squeegee

**143-232**

**\$135**

36" Squeegee

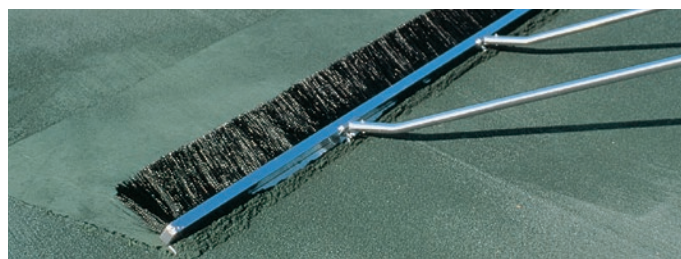

**143-246**

**\$155**

36" Squeegee with adjustable back plate

The Super Squeegee is a contractor tool specifically designed to spread acrylics and adhesives during hard court construction and resurfacing. It is the first such squeegee that provides the following advantages:

- An optional back shield, allowing users to simulate different durometers of rubber simply by adjusting the flex of the rubber
- A 6' handle with adjustable rubber grips for added feel and control
- An easily adjusted handle bracket and blade to accommodate different angles
- A squeegee in a 50- or 70-durometer rubber blade
- A solid mounting bracket to eliminate chatter and stabilize the surface blade

## Drag Brush/Lute, 7'

**136-3662** Hand Model Fine

**\$267**

**136-3662C** Hand Model Coarse

**\$267**

**136-3049** Tow Model Fine

**\$283**

**136-3049C** Tow Model Coarse

**\$283**

The drag brush/lute combination has three individual rows of 6" bristles. Two softer, outer rows of bristles move the finest particles of Har-Tru, and a third firm, inner row of bristle levels low spots and divots. Turn the brush over and you have a 7' lute, perfect for cutting out high spots or leveling small patches. Every club should have one.

## Replacement Bristles

**136-3664** Fine Bristle 4 1/2"

**\$41.50**

**136-3665** Coarse Bristle 4 1/2"

**\$41.50**

**136-3669** Fine Bristle 6"

**\$47.50**

**136-3670** Coarse Bristle 6"

**\$47.50**

Replacement bristles are made of select synthetic fibers. The bristles slide easily in and out of the aluminum frame, making replacement a snap.

## DRAG BRUSHES

## Court Maintenance

## Straightliner Plus

**150-3471**

**\$350**

This is the fastest and easiest way to mask court boundaries for painting, by laying out masking tape lines precisely and evenly. Tape guides can be changed in seconds. Lay 1" masking tapes 1 1/2", 2 1/2", or 3" apart. Curves and circles can be done just as easily as straight lines. 8 lbs.

## Drag Brush, 7'

**136-3041** Hand Model Fine

**\$195**

**136-3041C** Hand Model Coarse

**\$195**

**136-3039** Tow Model Fine

**\$199**

**136-3039C** Tow Model Coarse

**\$199**

This drag brush has built-in strength and versatility with replaceable dual 4 1/2" bristles designed to level and manicure your court. Reverse the handle and double the life of the broom. Other bristle combinations are available on special orders.

**\$112.95**

## Tow Handle

**136-3668** Tow handle

The tow handle includes right and left handles, a U joint and an S-hook. This setup allows the drag brush to be pulled at the proper angle and provides for easy attachment to a utility vehicle. Special knuckle action helps prevent breakage if the brush bumps the fence or net while in tow.

## COURTMASTER Royale™ Sweep

143-3153 ►

Great around pools, on driveways, for golf greens

- All-steel powder-coated white frame
- Comes with 4" blue PVA foam roller
- Also works with 2" PVA foam roller
- Works on any hard surface with no scraping or damage to court
- Produces a 36" sweep that squeezes water ahead of roller unit

\$63

\$65

## Mastersweep by Rol-Dri

143-3150 ▲

Made from tough, durable polyvinyl alcohol, this remarkable seamless roller will outperform any other roller. The nondeteriorating foam is molded directly onto the roller core for a seamless fit to ensure rapid, streakless drying.

## Super Sopper

**143-300** 7 Gallon Mackerel

**\$730**

**143-301** 14 Gallon Dolphin

**\$960**

The Super Sopper takes care of total water removal by lifting water from a court using a sponge-covered barrel and straining it into the center of the porous barrel, where it is held until emptied. Can hold up to 14 gal. The Super Sopper is perfect for courts that puddle in low areas. It can be used on both hard courts and Har-Tru courts. Replacement sponges available.

### 32" Medium-Duty American Water Broom

142-3072 ▲

This 6-jet water broom cleans a 32" path.

- Constructed of light-gauge steel with brass fittings
- 6 rubber-and-brass push-nozzle assemblies, brass on/off valve and double ball-bearing rubber casters
- Medium duty for industrial/commercial work
- Assembly required
- 9 lbs

### 9-Jet Water Broom

142-3055 ▶

Made of aircraft structural aluminum, eliminating rust and corrosion.

- Durable neoprene wheels will not mark surfaces
- Guards protect brass jets from wear
- Washes up to a 4' path with one pass
- 42" L
- Anodized blue
- 7 lbs

\$199

### Court Sweep Broom

142-3080 ▶

Easy to maneuver and great for hard or soft courts.

- Synthetic brush for effective sweeping action and long brush life
- 60" handle of tubular steel thread
- 24" L brush, 3" L bristles
- 5 lbs

\$55

\$250

### 36" Heavy-Duty American Water Broom

142-3071 ▲

7-jet water broom cleans a 36" path on any paved surface. Ideal for tennis courts or any place you clean with a hose.

- Easy to use; just connect the water broom to a standard garden hose
- Cleans in a third of the time with a tenth of the water
- 7 threaded brass nozzles, heavy-duty steel-and-brass construction, double ball-bearing caster, brass shut-off valve
- Shipped assembled and ready to use
- 12 lbs

\$5550

## Kleen Sweep® 28 Sweeper

142-3298 ▶

A walk-behind, 28" direct-throw power sweeper designed for indoor or outdoor use. Ideal for use on concrete, asphalt, artificial turf and commercial carpet.

- Cleans up to 37,943 sq ft per hr
- 2.6 cu ft hopper can handle a large variety of debris
- Side door for easy waste removal
- Has built-in recharge port,
- safety-interlock, front-guide rollers, emergency red stop button, battery charger and hour meter
- Adjustable handles, cup-holder panel
- 365 lbs

\$825

## Kleen Sweep® 27 Sweeper

142-3299 ▶

Ideal for machine shops, stock rooms, parks, small yards, parking areas, tennis courts and loading ramps

- Constructed of light-gauge steel with brass fittings.
- 27" sweeper cleans 5 to 7 times faster than manual sweeping
- Clean up to 24,757 sq ft per hour
- Injection-molded, structural foam poly body ensures durability and prevents rust
- Rotary side-brush sweeps dirt away from walls and corners into the path of the wide main brush, which deposits it directly into a large hopper
- Fits easily through standard-size door
- 57 lbs

## Finishing Coats

### Novacoat 123-3311

\$78

100% acrylic tennis court layer that provides the wearing surface for the tennis court coating systems.

- Highly pigmented for nonfading, long-lasting color
- Reduces glare and lowers the surface temperature of the pavement
- Low-abrasive texture for medium play
- Yield: 150–275 sq ft per gal, per coat,
- with 2 coats recommended
- 5-gal pails
- Blue, burgundy, classic green, grass green, novagreen, red, sand dune, terra cotta
- 65 lbs

### Novaplay 123-3312

\$83

A textured, nonskid heavy-duty surface coating ideally suited for use on playgrounds, basketball courts, walkways, wheelchair ramps and tennis courts.

- Same low-abrasive texture as Novacoat, but formulated with tougher acrylic polymer
- Yield: 130–140 sq ft per gal, per coat, with 2 coats recommended
- 5-gal pails
- Black, blue, burgundy, classic green, grass green, novagreen, red, sand dune, terra cotta
- 65 lbs

### Novaplay 2 123-3313

\$95

Heavy-duty nontextured coating for inline skating, street hockey, basketball, shuffleboard and play areas.

- Yield: 110–140 sq ft per gal, per coat
- 5 gal pails
- Black, blue, burgundy, classic green, grass green, novagreen, red, sand dune, terra cotta
- 50 lbs

### Novabond 123-3314

\$82

Patch bonder and slurry base. Acrylic polymer emulsion can be used for repairing cracks over 1/2" wide.

- Material is concentrated and will be mixed with sand and Portland cement
- 5-gal pails
- Milky white
- 48 lbs

### CP-761 Concrete Primer 123-3315

\$90

Acrylic polymer emulsion for surfacing bare concrete. Use as alternative to Novabond slurry method.

- Concentrate material applied to new concrete before Novasurface
- Yield: 160–180 sq ft per gal, per coat
- 5-gal pails
- Milky white liquid dries clear
- 55 lbs

### Novasurface 123-3316

\$55

100% acrylic resurfacer used for base coat on new tennis courts.

- Blend with sand and water on jobsite, then squeegee over the surface to fill voids
- Yield: 90–150 sq ft per gal, per coat
- 5-gal pails
- Dark gray
- 65 lbs

### Novacaulk #1 Gallon

123-3317 1 Gal  
123-3323 2 Gal

\$33

\$33

An elastomeric acrylic putty designed for cracks less than 1/2" wide.

- Place into crack to fill the void.
- Yield: 70 linear ft per gal
- 1-gal pails
- Neutral, grass green, novagreen, red
- 10 lbs

### Novacaulk #1

10 oz Tubes 123-3322

\$6

Step #1 elastomeric putty in a convenient 10 oz tube

- Fits standard caulking gun
- Neutral, grass green, novagreen, red
- 1 lb

## LINE PAINT

### Novatex 123-3318

\$26

100% acrylic textured white line paint for marking the lines on tennis courts.

- Ball bounces on the line the same as it does on the tennis court surface
- Yield: 1 gal per tennis court
- 1-gal pail
- White
- 12 lbs

### Seal A Line 123-3319

\$17

Special 100% acrylic coating that seals the edge of masking tape on hand-painted lines. Apply with brush or roller after tape is laid.

- Keeps line-marking paint from migrating under the edge of masking tape
- Creates lines so sharp they appear to be cut into the surface
- White liquid dries clear
- 1-gal pail
- 10 lbs

### Novaline 123-3321

\$26

100% acrylic nontextured line paint for spray application.

- 1-gal pail
- White
- 10.5 lbs

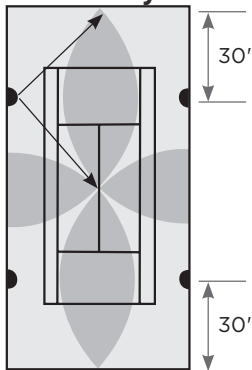

Here are a few notes that might help you make a selection:

1. Ascertain the pressure and volume of your water source and the size of your incoming line. Then utilize the chart below to see what heads are an option.
2. The higher the model numbers, the more water the head will put on the court and the further the throw radius will be.
3. The Rainbird Falcon Series has a different head for full-circle (FC) and part-circle (PC) rotation, so select the head that meets your needs.
4. HS means it is a high-speed head. High-speed heads turn more quickly than standard heads, allowing them to distribute more water per watering cycle. Due to the faster rotating speed, the distance they throw the water will be reduced.

### We offer equipment from three leaders in irrigation.

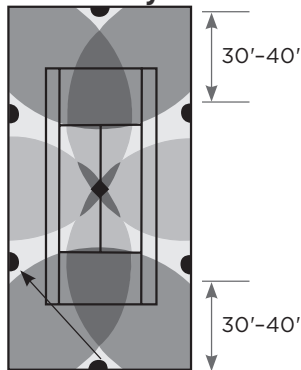

Why? Facilities have individual needs and preferences and we want to provide you a choice. All the heads we offer have stainless-steel risers and are highly suited for tennis court sprinkler systems.

## Tennie Two-Step

\$213

### 147-3012 Tennie Two-Step with Brush

The Tennie Two-Step has become the industry standard for keeping clubhouse carpets, players' shoes and tennis club pathways clean. It is a UV-resistant, polyethylene, water-holding basin containing two patented perforated rubber panels designed to force water into the soles of your tennis shoes while you rock back and forth on your feet. The results are noticeable everywhere. Clean tennis shoes mean less Har-Tru in the pro shop, on walkways or in your car. The Tennie Two-Step is available without a brush or with a shoe brush attached to the frame for more aggressive cleaning needs. Installation is simple and requires two holes to be drilled and two bolts to be tightened. All of the appropriate hardware is included.

## Score Tube

139-405 ▶

\$33

Patented tennis scorekeeper secures over the net post, attaches to the net or hangs on a fence. Installation is quick and easy. Stainless-steel clamp to secure to post or net is furnished. Hooks are also supplied for fence mounting. Players use tennis balls to keep score. There are no moving parts to break or rust. The entire unit is sealed, so rain and weather have no impact on it. Available in white.

## Scor-Post Pro

139-3250 ▶

\$83

The all new Scor-Post Pro replaces and improves on the design of the now discontinued Scor-Post.

- Matches existing Scor-Posts already on courts
- Attaches to your net post and uses tennis balls to show the score in both games and sets won
- Constructed of 3 PVC center pipes and 2 poly sheets folded in half and secured to the center pipes to create ball pockets
- Uses a sturdier design, with an extruded center column, molded ball cups that can be individually replaced, and top and bottom caps that secure the center column and ball cups in place

- New design also requires less assembly time
- Ships with an all-metal support that attaches to the net post via quick-release hose clamps for easy court changes with no tools
- 4 lbs

## COURT SEATING

- Cabanas
- Benches
- Chairs

# COMFORT ON THE COURT

**It doesn't seem like that many players sit down on change-overs —** but the moment seating is not available, it is sorely missed for that occasional shoe tie or as a place to put your belongings. We seek out designs that are attractive and durable, and we have a variety of seating choices for you to consider.

# CABANAS ▼

## Cabana Bench Table

134-3800 ►

Perfect for anywhere people might want a shady spot to sit, eat or get quick shelter from sudden rain. Comes with a convenient table to place a drink, equipment or snack. Available in two sizes (10 ft or 8 ft) to fit your landscape or budget.

### Bench Specs

- Flat bench: 6' or 8' long by 1' wide each side
- 3" x 4" Durawood Plastic Composite Material

### Table Specs

- 6' or 8' long by 1' wide
- 3" x 4" Durawood Plastic Composite Material

### Frame

- Heavy-gauge steel
- High-quality black powder-coating finish

### Standard Canopy

- 8' or 10' x 6' x 2' gable design
- All-weather, fade-resistant canvas with 5-year fade warranty
- Five standard colors: Burgundy, Pacific blue, brown, kelly green, forest green
- Stripes with white, or solid with white border

### 8' long

**\$2,390**

- 8' long, 6' wide, 8'10" high
- Steel post size: 3" x 3"
- Weight: 500 lbs
- Direct-burial or surface-mount installation

### 10' long

**\$2,590**

- 10' long, 6' wide, 8'10" high
- Steel post size: 3" x 3"
- Weight: 550 lbs
- Direct-burial or surface-mount installation

## Deluxe Courtsider Court Bench

1-5 qty \$189  
6+ qty \$172

### 130-3243

Great for outdoor use. Impervious to the sun. Solid legs can be bolted to any hard surface. Multichambered slats provide comfort, with curvature making sitting easier. 5' long. Available in white or green. 45 lbs.

## Courtsider Court Bench

1-5 qty \$169  
6+ qty \$150

### 130-3230

This is the third generation of our Courtsider, with added comfort and strength. Weatherproof, lightweight and ideal for courtside, poolside, patio and golf tee area, public or private parks, with five vertical "I-Beam" supports and 100% solid PVC coloring compounds used throughout. The best UV-inhibiting, fade-resistant materials available are used in the compound. (If subjected to year-round intense sunlight, as in Florida and other Southern states, some fading may occur over time.) Bolt holes in bench legs secure it to solid surfaces for theft prevention. White or green. 5' long. 35 lbs.

## Dent-Saver Bench, Indoor

130-3240 1-5 qty \$400 6+ qty \$380

5' L, great for indoor acrylic hard court surfaces, locker rooms, gyms. For indoor use only. 19 3/4" W. Constructed of high-grade poplar treated with 2 coats of EPA-approved clear polyurethane sealer. Drop-shipped. 61 lbs.

## Jumbo Rain/Shine Bench

130-3239 50 lbs. 1-5 qty \$470 6+ qty \$355

8' L, accommodates 4 people comfortably. White PVC that stays cool. Large bench leg bottoms protect vulnerable court surfaces. Assembles in 30 minutes with provided stainless-steel fasteners. Drop-shipped. 50 lbs.

## Rain/Shine Bench

130-3238 45 lbs. 1-5 qty \$340 6+ qty \$330

Same as above, except 5'3" L. 17" D with 16" H backrest. Drop-shipped. 45 lbs.

## Dent-Saver Bench, Outdoor

130-3229 5' L, 72 lbs 1-5 qty \$495 6+ qty \$475

130-3232 4' L, 52 lbs 1-5 qty \$470 6+ qty \$450

Built to last from rugged, recycled HDPE plastic lumber. For outdoor use. Assembles in minutes. 18 1/2" W. Uses no metal fasteners, so cannot rust, rot, split or warp. Impervious to water and sunlight. Available in forest green. Drop-shipped in knocked-down state.

## Multi-Purpose Bench

130-3231

Great for outdoor use. Impervious to the sun. Solid legs can be bolted to any hard surface. Multichambered slats provide comfort, with curvature making sitting easier. 6 1/2' long with three feet. White or green. 45 lbs.

1-5 qty	\$200
6+ qty	\$210

## Paddock Bench

130-3092

6' L, contoured seat and back. Wood slats finished in weather-resistant green enamel paint. Extra-strong black steel frame. 1 per carton. 56 lbs.

1-5 qty	\$210
6+ qty	\$205

## Patio & Mall Bench

130-3091 1-5 qty \$195 6+ qty \$182

Polyurethane natural finish protects 14"-wide slatted platform. Metal legs with holes for secure fastening. Best for indoor use. 5' long. Drop shipped. 44 lbs.

## Courtside Tennis Bench

130-3090 1-5 qty \$115 6+ qty \$108

Durable green outdoor bench with back. Yellow pine slats with protective weather-resistant paint finish. Black powder-coated frame. Drop shipped. 42" long. 30 lbs.

## PVC Pro Bench

130-3234

\$228

Super-strong PVC. 5' long. Complements any indoor or outdoor facility. Shipped assembled in one carton. 45 lbs.

## Court Cover

121-3540

\$0.40 SQ FT

121-3541

\$999

Clubs and residences are discovering that a court cover allows them to open more quickly in the spring. Less moisture on the court surface means less freezing and thawing. Tapes stay down better and court material shifts less. Covers are made from woven coated polyethylene and are custom cut to fit your court. Available in black, white, silver and blue.

## Court Clock

\$139.95

129-3043

This all-weather clock measures 18" in diameter and is designed to handle the sun, rain, wind and cold. The clock is radio-monitored and updated every few hours off the United States military's atomic clock in Boulder, Colorado. The unit also provides readings for temperature and relative humidity. Your members will appreciate your looking out for them!

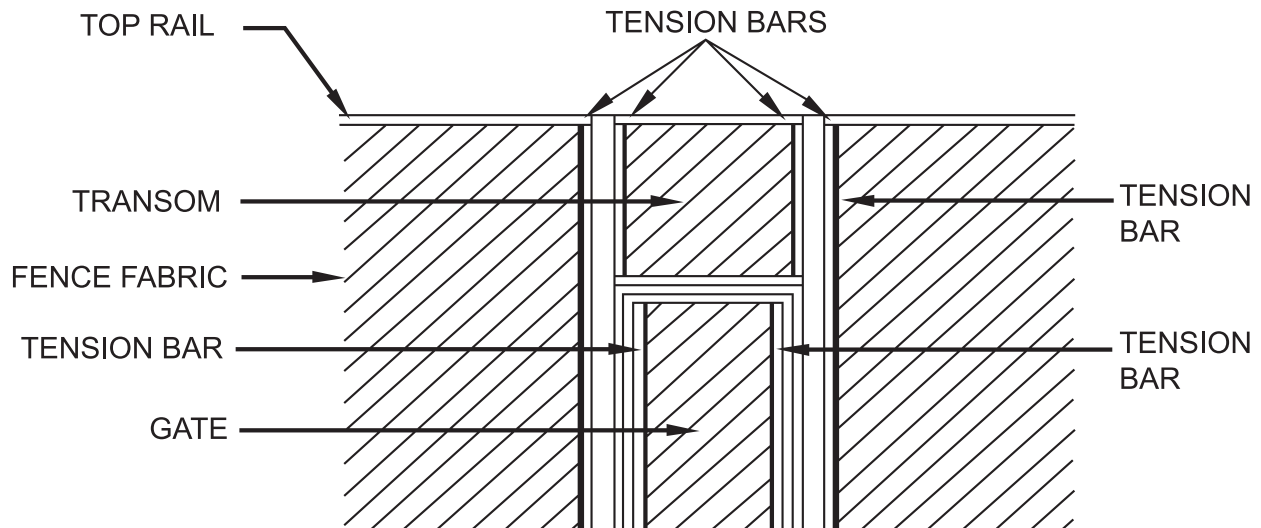

## INSTALLATION INSTRUCTIONS

- Windscreens
- Backdrops
- Divider curtains

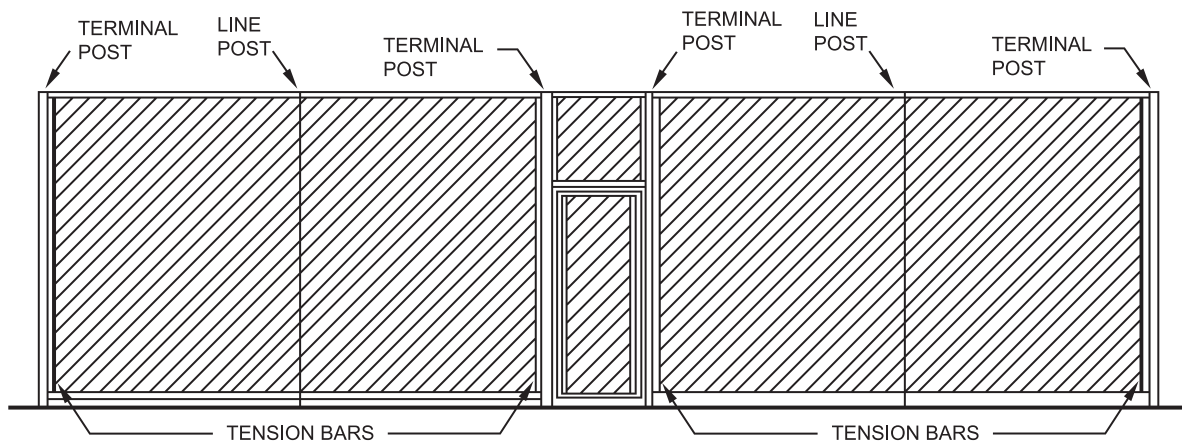

# HOW TO: MEASURING AND INSTALLATION INSTRUCTIONS

Now that you have brand-new equipment, you're on your way to a fresh look for your courts. Use these easy-to-follow instructions to be certain **everything is installed correctly**. If you have additional questions about installation and maintenance of your Har-Tru products, don't hesitate to call 1-877-4-HAR-TRU to speak with our tennis experts.

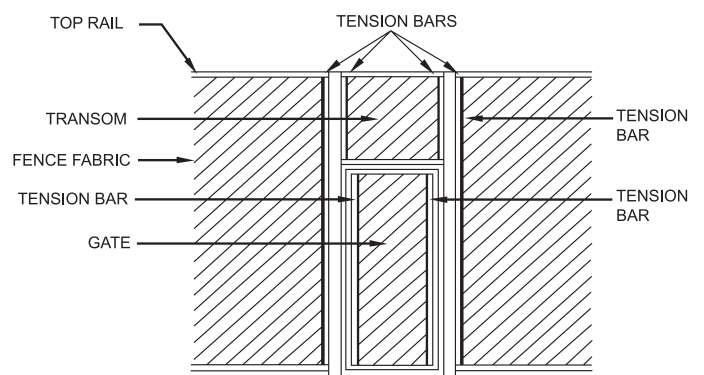

## How to Measure Main Fences

1. You should begin taking measurements at a terminal (corner) post and continue to the next terminal post. Do not hold the measuring tape up to the fence. This will create slack, which could cause your measurements to be inaccurate.
2. Measure the windscreen length from inside tension bar to inside tension bar. You may disregard line posts unless they are on the court side of the fence. For ease of handling, try to keep an individual curtain under 60'.
3. Measure the height of the windscreen from the bottom of the top rail to the top of the bottom rail. Keep in mind that windscreen is generally installed one or more feet from the top and bottom of the fence.
4. **Mark each measurement on a diagram of each court. Send a copy of this diagram to us when you place your order so that each windscreen will be properly labeled when it is shipped to you.** Also be sure to tag each panel before you remove your windscreen for storage each year.
5. **Exact measurements are necessary (including feet and inches).** Do not guess or round off dimensions. No two fences are identical.

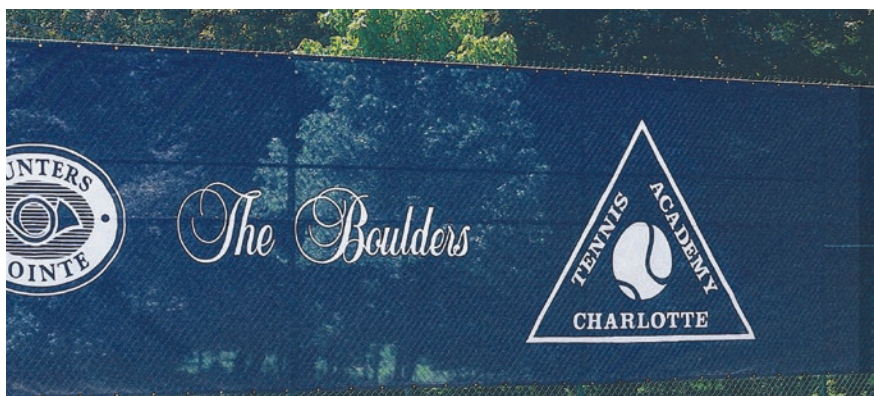

## How to Measure Gates and Transoms

1. The width of the gate should be measured from inside tension bar to inside tension bar. The height of the gate should be measured from the bottom of the top rail to the top of the bottom rail. Keep in mind that windscreen is generally installed one or more feet from the bottom of the fence.
2. The width of the transom should be measured from inside tension bar to inside tension bar. The height should be measured from the bottom of the top rail to the top of the rail that's over the gate opening.

## Installing Your Windscreen

1. 9' windscreens are hung from the top of the chain-link fence. The usual fence height is 10', which allows for 1 foot of air space at the bottom. 6' windscreens, if used, are placed in the center of the chain-link fence or 2' from the top.
2. Hang the windscreens so that the **seams and hems are toward the fence**, leaving the smooth side facing the court.
3. **ALL GROMMETS MUST BE USED to secure the windscreens to the fence.**
  - First, fasten one vertical edge at the desired height to the fence using regular (50-lb breaking strength) Ty-Rap®.
  - Next, fasten the top of the windscreen to the fence, keeping the top straight by following the chain-link pattern. Use either regular Ty-Rap® or, if the windscreen will be rolled to the top during high winds, snap hooks or heavy-duty 120-lb breaking strength Ty-Rap®.\*
  - Next, fasten the remaining sides of windscreen to the fence with regular Ty-Rap®.
  - Finally, fasten the bottom with regular Ty-Rap® or, if the windscreen will be rolled to the bottom during high winds, with snap hooks or heavy-duty 120-lb breaking strength Ty-Rap®.
4. When anti-billowing center tape is used, fasten it after top and bottom are attached using regular, 50-lb breaking strength Ty-Rap® through each grommet.
5. To prevent damage, when high winds are expected, cut away the regular Ty-Rap® that you have used for the sides, center tape and either the top or the bottom of the windscreen. Then roll the windscreen up or down to where the snap hooks or heavy-duty Ty-Rap® are attached and tie it up using 14"-long Ty-Rap® to help prevent wind damage.
6. In climates that get freezing temperatures, high winds and snow, **we recommend that windscreens be taken down for the winter months and rehung in the spring.**  
*If windscreens are left on the fences during the winter in these areas, they must be at least rolled up or down and secured.*

**If windscreens are not rolled or removed, all warranties are null and void.** There is also a strong chance that the winter winds will cause your cyclone fencing to bend.

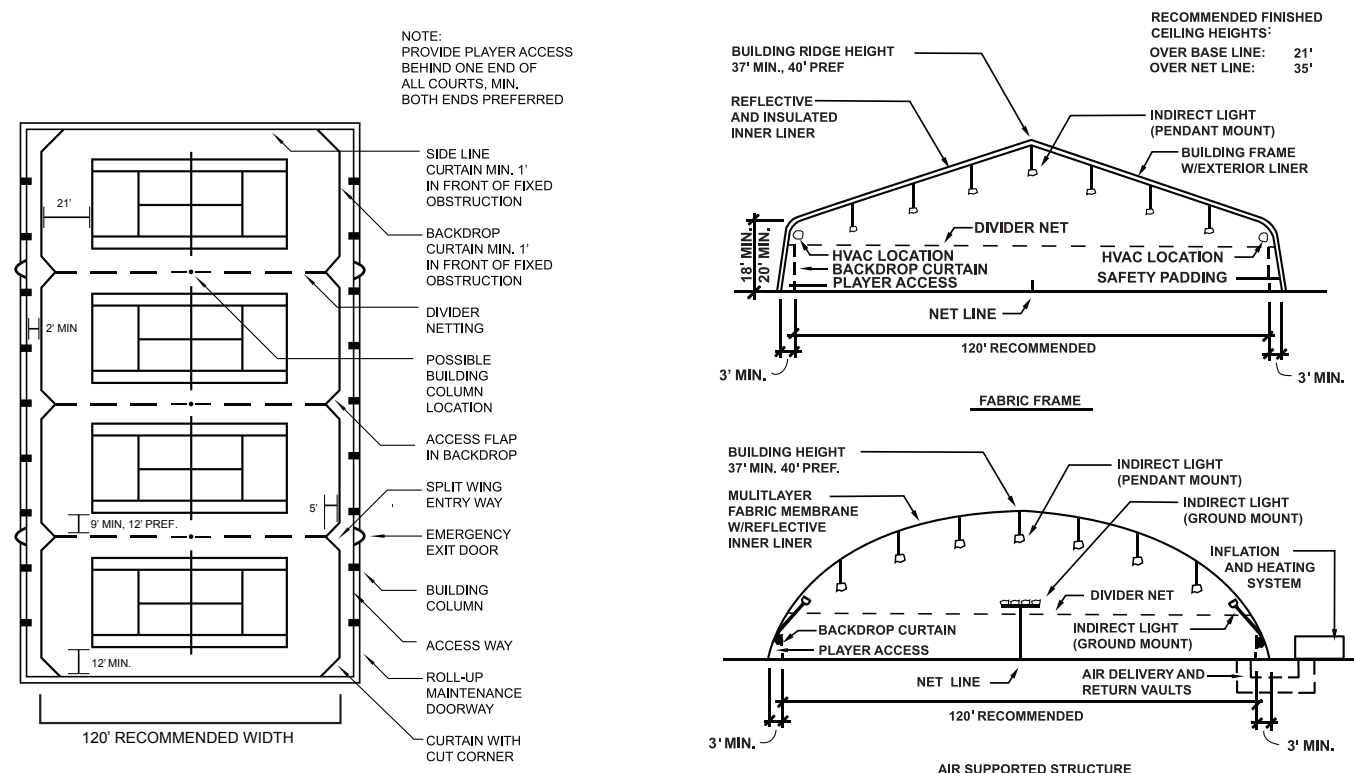

\* We recommend using heavy-duty Ty-Rap® or snap hooks to secure either the top or the bottom of the windscreen so that it can be rolled up or down toward this secured end during high winds. We also suggest using our 14"-long Ty-Rap® when securing the rolled-up windscreen to the fence.

## General Measurement Instructions

**Always start with a written layout of the facility.**

- All dimensions must be on the layout.
- Take measurements and view every dimension from courtside, looking at backdrop and walls.
- All walkways behind the curtains must have a specified width.
- Start taking dimensions from one end wall. This is usually the clubhouse end, but not always.
- The position of divider curtains between courts must be determined and marked on the layout.
- With cable systems, older cable must be tightened before any height measurements are taken.
- Cable height for backdrops must be measured. Cable height for divider curtains must be measured as well. Frequently, these are different because of construction details.
- **All divider curtains have a natural droop that occurs between fasteners of 1"-2" as they hang. This is normal.**
- All measurements of height must take into account the fasteners to be used. For example, snaps will add 1 3/4" and will affect both backdrops and divider curtains.
- All emergency exit doors must be identified and provision made to allow unfettered access to these doors.

## MEASURING FOR INDOOR PRODUCTS

Reprinted from Tennis Facilities Construction and Maintenance Manual by permission of the American Sports Builders Association. Drawings are illustrations only and we accept no responsibility for their use.

## BACKDROPS

**Backdrops can be supported by cable and turnbuckle, high-tension wire or a track system.**

- Perimeter curtains should be a minimum of 10' high, but we recommend 12' as the optimal height, and they may be as high as the wall.
- Maximum recommended length on a 10' or 12' high piece is 60' (for handling).
- Top and side hems typically have brass grommets spaced 15" apart for hanging on cable with snaps.
- Bottom hems weighted with lead rope may be appropriate in certain instances and are generally recommended with lighter-weight curtains.

There are several choices of hanging heights for backdrop curtains.

- Some facilities prefer to install them so that they hang 1/4"-2" above the court surface for a neat, finished look.
- Others want curtains that lie on the surface to provide better ball containment and to reduce swaying, although this may lead to wear on the curtain bottom and abrasion of the court surface.
- Curtains should not be permitted to lie more than 1" on the court surface.
- Backdrops are also available in either straight-corner design or with angled California corners, which can include tucks to provide easy fastening of divider curtains to backdrops.

## MEASURING FOR BACKDROP

- Each inside court is best fitted with a single curtain that is 60' long or shorter. Where it is hung depends on the location of the court entrances; it does not necessarily have to start at the end of the divider curtain.
- If entrance to the court is through a split wing at the end of the divider net, then one curtain extending from the split wing to the next court's split wing is the best arrangement. Allow 1' of additional curtain at each wing.
- If a full-height door flap is used and positioned behind the baseline, then curtain sizes will be determined by where the door flap is located. Allow 1' overlap at the door flap.
- If the plan calls for court entrances to be through the overlaps in the backdrop curtains, these need to be situated away from the main frames and again overlapped by 1'. Each backdrop should be overlapped along the length by 2', except at the end, where there should be 1' extra material to wrap around.

\*NOTE: All vinyl in our divider curtains, replacement skirts, backdrops and padding has been registered with the California State Fire Marshal as a flame-retardant product, as identified in Section 13115, California Health and Safety Code, under Registration #F-222.00.

## DIVIDER NETTING BASICS

- The standard court needs 120' of 10'- or 12'- high divider curtain, which can be divided into several sections (e.g., 40' and 80', 60' and 60', etc.). They can be supported by cable and turnbuckle, high-tension wire or a track system.
- The bottom of the netting should not be anchored to the surface in any way but should hang 1/4" above the court surface or just touch the surface. Lead rope can be added as a weight to force the curtain down toward the floor, thus further preventing balls from going between courts.
- Divider curtains can also be used outdoors, but because they should not be hung on fence posts, appropriate hanging structures must be provided. Proper installation is important, and the support structure must be capable of handling the high tension applied to the supporting cable.
- Netting should be hung in two pieces that may be drawn to the ends of the court or to the center for court maintenance. The top of the netting should be strung 10' to 12' above the surface of the court. If the bottom of the divider curtain touches the floor, over time, abrasion will wear the bottom, so a detachable lower skirt may be specified and replaced when worn.

## MEASURING FOR DIVIDER CURTAINS

- **All divider curtains have a natural curving undulation as they hang and will require adding 4' to the typical across-court dimensions of 120'.**
- All divider curtains should be overlapped by 2' at center court to allow for passage between courts.
- Divider curtains must be supported by vertical overhead cables at three or four points to keep them from sagging over time, or high-tension cabling should be used with one center support cable.
- The point where the divider curtain will meet the backdrop can be designed in a number of ways. It can meet at 90 degrees and have an adjacent flap doorway. It can meet at a California corner that provides a corner angle in two adjacent courts. Door flaps to allow for passage are easily designed into this configuration. However, it is critical to specify every distance in this section. California corners are usually set at 45 degrees, but exact dimensions are required to ensure the proper joining of backdrop and divider curtain.

Har-Tru court equipment and accessories are made with the same integrity we've become famous for since we began 85 years ago. Wherever you play, you can depend on our products to help you have a better game.

# 85 Years of Tennis Champions

In 1931, a contractor named Henry Alexander Robinson (HAR) developed a clay court surface using American stone first mined in Pennsylvania. The stone's true green color, and the true bounce that came from playing on the product, quickly caught on — and the Har-Tru company was born.

Since then, Har-Tru has grown into the world's premiere clay-court company. More than 88% of the world's champions learned to play on clay, and the benefits of a Har-Tru surface to players are many, including developing a complete all-court game with essential core footwork and balance skills, improving player endurance, and reducing stress and injury during play.

---

**Har-Tru helps develop champions, but we don't stop  
at clay. We are champions of the sport of tennis  
wherever it's played.**

---

Our court equipment and accessories are made with the same integrity that we've been famous for since we began 85 years ago. Our goal is to increase the quality of the game, and the enjoyment of playing it. Building on our unique experience, we work to create an exceptional future for the sport you love.

Should you have any questions about our equipment, accessories, or surfaces, please contact us anytime. We're here to make your game the best it can be every time you set foot on a court.

**[hartru.com](http://hartru.com)**

# EVERYTHING YOU NEED FOR AN INCREDIBLE COURT

**Har-Tru** offers the most complete tennis-court equipment and accessories catalog in the country. Our product selection, performance quality and personal service bring out the best in your court and your game.
